Aspiring DevOps Engineer | Full-Stack Web Developer

PROFESSIONAL SUMMARY

Full-stack web developer with hands-on experience in the MERN stack, RESTful API design, and responsive UI development. Eager to transition into a DevOps role by combining a solid software development foundation with a growing interest in CI/CD pipelines, containerization, cloud infrastructure, and automation. Experienced in Git-based workflows, API integration, and cross-functional team collaboration. Holds Microsoft Azure Essentials certification validating core cloud and infrastructure knowledge. Actively building DevOps skills including Docker, Linux administration, and deployment automation.

TECHNICAL SKILLS

DevOps & Cloud: Microsoft Azure Essentials, Git, GitHub, Linux (Ubuntu), CI/CD concepts, REST APIs

Languages & Scripting: JavaScript, Node.js, Bash (basic), HTML/CSS

Web Frameworks: React.js, Express.js, Tailwind CSS

Databases: MongoDB, RESTful API integration

Tools & Practices: GitHub version control, JWT Authentication, Agile collaboration, Cross-browser testing

Currently Learning: SAP BTP, Docker, Kubernetes basics, GitHub Actions, Linux system administration

WORK EXPERIENCE

Jabsz Gaming and Studios – Web Developer

Dec 2024 – May 2025

- Developed and deployed two full-stack web applications: an Employee Management Portal and an interactive Knowledge Bubble Game.
- Built and integrated RESTful APIs between React.js frontend and Node.js/MongoDB backend, gaining exposure to service-oriented architecture patterns relevant to DevOps pipelines.
- Managed all project code using Git/GitHub with branch-based workflows, pull requests, and version control best practices.
- Coordinated with backend team on API contract definitions, environment configurations, and deployment-ready builds.
- Ensured cross-browser compatibility and responsive design — reducing post-deployment UI bugs through systematic testing before release.

Cognifyz Technologies – Frontend Developer Intern

May 2024 – Jul 2024

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js for real-world client projects.
- Contributed to improving UI consistency and user experience across multiple components with focus on build quality and reusability.
- Practiced code review cycles and cross-functional collaboration within a structured team workflow.

PROJECTS

Mangalam Billing App – Patient Billing & Deployment

- Built a billing application for a medical clinic that enables doctors to quickly generate patient bills by filling in patient and treatment details — reducing manual paperwork and billing errors.
- Developed the full frontend interface using React.js with an intuitive form-driven UI, allowing non-technical clinic staff to operate the app with ease.
- Deployed the application as an Android app using Android Studio — bridging web development and mobile deployment, a hands-on experience with build, package, and release workflows directly relevant to DevOps practices.

- Managed the full deployment lifecycle: from development build to APK packaging and device installation, gaining practical exposure to app distribution and environment configuration.

DPhysio – Physiotherapy Clinic Management System

- Developed a full-stack MERN application with online appointment booking, automated email confirmations, AI chatbot support, and JWT-secured doctor login.
- Architected modular backend services and managed environment variables and configuration files — practices central to DevOps deployment pipelines.
- Applied responsive React + Tailwind UI with a focus on production readiness and performance.

EDUCATION

B.Tech – Computer Science & Engineering

2021 – 2025

Parul Institute of Technology, Vadodara | CGPA: 6.84

CERTIFICATIONS

- Microsoft Azure Essentials – Core Azure services, cloud concepts, security, compliance, and pricing models.
- SAP BTP (Business Technology Platform) – In Progress (Expected: May 2026) – Cloud-native development, integration services, and CI/CD on SAP's cloud platform.
- Frontend Web Development in HTML – Structured, semantic, and accessible web page development.
